

Utorak

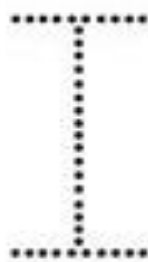

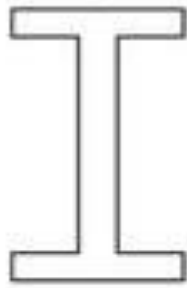

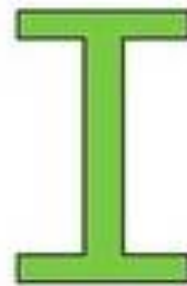

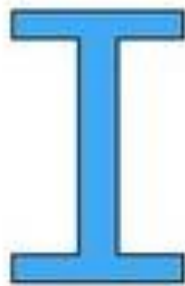

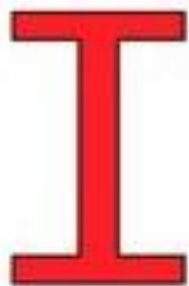

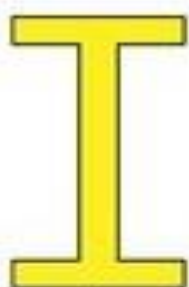

Sat 1= Matematika

Najprije pogledaj svoje igračke. Pronađi jednu visoku igračku i jednu nisku igračku. Odredi koja je visoka, a koja niska. Ponesi ih sa sobom i stavi na radni stol. Riješi nastavni listić. Igračke ti mogu poslužiti kao pomoć. U svakom kvadratu zaokruži nisko voće. Na kraju ga imenuj.

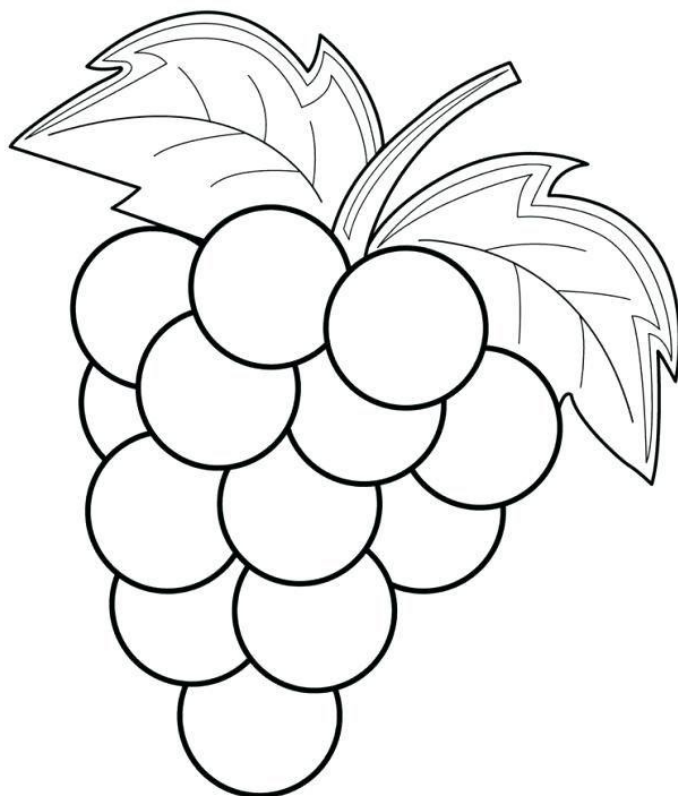

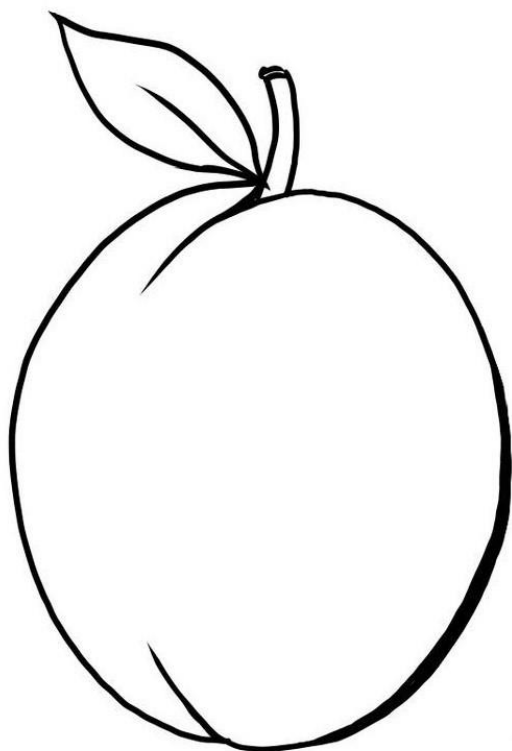

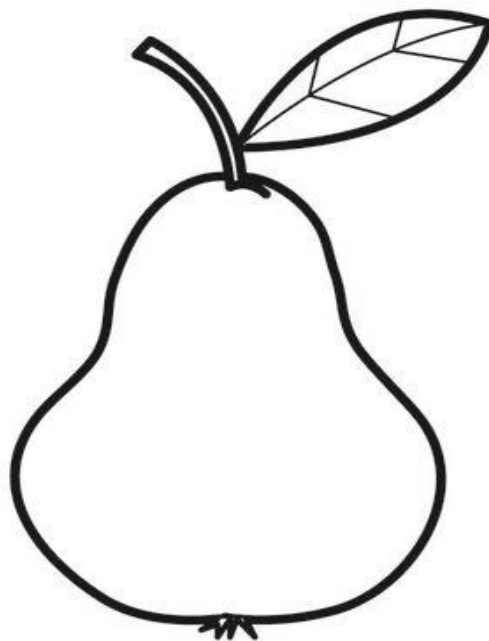

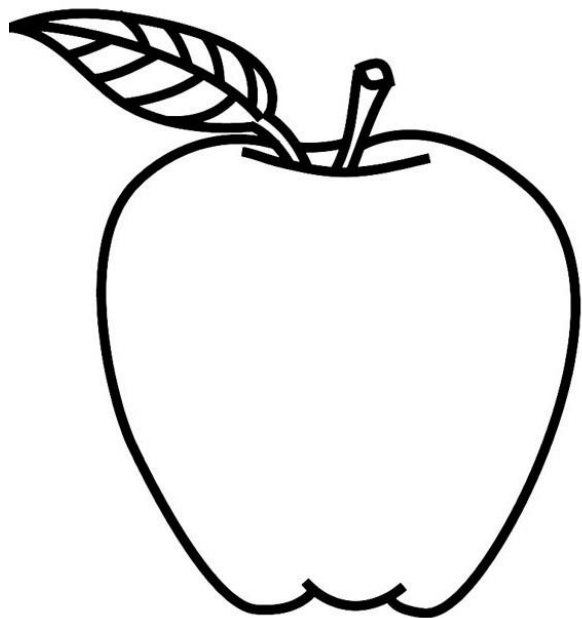

Sat 2= Hrvatski jezik

Povuci crte u smjeru gore prema dolje. Oboji slova i zadanim bojama. Imenuj boje. Na kraju napiši slovo I prema predlošku.

Sat 3= Priroda i društvo

Pronađi i oboji voće koje raste u vinogradu.

Sat 4= Glazbena kultura

Ponovi brojalice „Pajo - patak“ i „Pusa mami, pusa tati“ uz ritmično udaranje rukama (kao u školi).

Pajo patak

Pajo patak

dobio zadatak

da poljubi patku

u glavicu slatku.

Pusa mami, pusa tati

Pusa mami,

pusa tati,

deset sati,

idem spavati.

Sat 5= Likovna kultura

Pogledaj sliku pa na jednu stranu stavi tople boje: žutu, narančastu i crvenu. Na drugu stranu stavi plavu, ljubičastu i zelenu. Jedan list oboji koristeći samo tople boje (žutu, narančastu i crvenu). Drugi list oboji koristeći samo hladne boje (plavu, ljubičastu i zelenu). Koje boje ti se više sviđaju?
